

File Management Process

Download:

Download photos from memory card to computer hard drive
(No software needed)

Sort:

Sort and tag your favorite images

Recommendation:

-ACDSee Photo Studio Home

Edit:

Edit favorite images in editing software

Recommendations:

-Adobe Photoshop CC or Elements
-Adobe Lightroom

Backup:

Back up to two different locations

Recommendations:

Offsite back-up: Back Blaze (Cloud Storage)
Onsite back-up: Goodsync to separate external hard drives.

Share:

-Social Media

-Dropbox, OneDrive, or Google Drive to send multiple images to someone else.

-Upload to Smugmug, website, etc

Final Step:

Once all images are backed up in permanent location(s), clear memory card.
