

Microsoft Ecosystem Health & Risk Assessment Solution

WE DID THE HARD WORK, YOU REAP THE BENEFITS

DynamicPacks IT Health Profiler

Microsoft Active Directory, Office 365, Azure, DHCP and Cyber Security Assessment product

DynamicPacks IT Health Profiler is an automated Health & Risk assessment solution to help you significantly improve your Microsoft Ecosystem health & security posture.

OVERVIEW

As a security or system administrator, you have a broad range of responsibilities, including achieving and maintaining IT security and compliance across your Microsoft environment. But, as your organization grows and expands, you may find lack visibility into users, groups, permissions, applications and more, resulting in compromised security and potential data loss.

SOLUTION

The **DynamicPacks IT Health Profiler** for **Microsoft Ecosystem** offers critical insight into the health & security of your production Infrastructure. Use our automated solutions to find critical and high health and security issues and provide a detailed report. At no point during the assessment will any changes be made to your environment.

Microsoft Active Directory
110 AD Health & Security Checks in 8 categories. Designed to check health of Active Directory

Microsoft Office 365
80 Office Health & Security Checks in 10 categories. Designed to check Office 365 compliance items.

Microsoft DHCP Server
34 DHCP Health & Security in 6 Categories. Designed to check DHCP components such as Scopes.

Microsoft Cyber Security
CyberSecurity Dynamic Packs are designed to check endpoints and various items on endpoints and other systems.

- No Database Required
- Single-Click Assessment
- Quick Issues Dashboard
- Generate Actionable Report
- Delegate Technology Assessment

HOW DOES IT WORK?

The DynamicPacks IT Health Profiler is a software product developed by experienced experts. It collects relevant security and health data from target systems such as Active Directory, Office 365, DHCP Server and so on.

The DynamicPacks IT Health Profiler is a ready-only product and does not install any components on target systems such as agents. With the help of Single-Click assessment feature, the effort required to run the tool is kept to a minimal.

No one is immune from costly outages. Ensure you can find critical and high issues with DynamicPacks IT Health Profiler.
