

Capability Statement

Differentiators

- 30 years of customer satisfaction
- OQSG certified workforce
- "R" stamp for vessel repair projects
- On Staff C.P.W.I.
- Extensive inventory of specialty tools
- Hazwoper capabilities
- Variety of recent model equipment
- Specialty fab shop with plasma CNC
- Extensively trained employees
- ASME certified mobile welders

Core Competencies

- Reclamation
- Environmental Remediation
- Process gas construction and maintenance
- Pipeline Installation
- Well pad construction and hookup
- Location abandonment
- ASME plant maintenance and construction
- Pressure testing services
- Crane services
- Custom fabrication

Wire Brothers, Inc.

Wire Brothers, Inc. provides expansive oil & gas, commercial and industrial construction services. We are proud to offer a variety of recent model heavy equipment that includes skidsteers, trenchers, cranes, and everything in between. With our trained and certified personnel operating our fleet of equipment, whether you have a fence to build or a pipeline to lay, we have the ability to satisfy to the requirements for any job. We also have a vast inventory of specialty tools to compliment our maintenance and construction crews that allow us to offer services such as hydraulic/pneumatic bolting and torqueing solutions, pressure testing vessels and piping, demolition, underground facility locating, reclamation and environmental remediation, including hydroseeding, drill seeding and broadcasting equipment. Wire Brothers also has a fully equipped fabrication shop, including a plasma CNC machine, 100 hydraulic press, in house and mobile ASME carbon and stainless welders, "R" stamp for vessel repairs and on staff C.P.W.I. welding inspectors. With our experienced superintendents at the head of our exceptional workforce we can help you take your project from blueprints to completion!
