

General: Perennial; 2"-8" tall

Flowers: White to pinkish globes

Photo by Heidi Bohan

Form: Spreading, weakly branched stems

Photo by Heidi Bohan

Native Look-alike

Native trifolium species are rare in urban areas. The native **Wood sorrel**, *Oxalis oreganus* (below), has similar leaves but different flowers.

Photo by Heidi Bohan

Management Strategies

- Always remove
- Fibrous roots along stolons
- Primary spread: Seed, runners

Check with parks department or school district for proper disposal

WPGS: 200

Clovers:
White, Red, Little-hop
Trifolium species
Non-native
