IMPROVEMENTS AT BLOOR GO STATION

Dear Neighbour,

GO Transit is committed to keeping communities informed about our construction activities and infrastructure projects. In keeping with *The Big Move*, Metrolinx's regional transportation plan, we are planning to update and improve Bloor GO Station, making it a more modern link to safe, comfortable and convenient public transportation to Union Station and Pearson International Airport by early 2015.

RESIDENT IMPACTS AND SCHEDULE

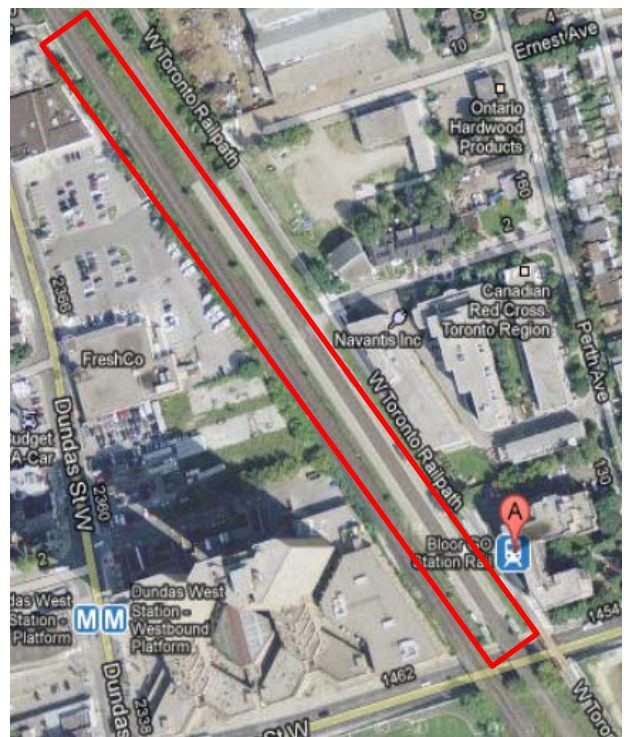

Preliminary work has started in preparation for the extension of the north platform. In order to reduce impact on our neighbours, the majority of the work will take place on weekdays from 7 a.m. to 7 p.m. There will be some weekend work as required. The majority of construction work will remain within the facility property (mapped in red below); however, disruptions such as dust, construction noise and intermittent closures and detours throughout the station area can be expected until all of its phases are completed. Additional track work will also take place at different stages during the project. Work will commence in February 2013 with completion scheduled for early 2015.

PUBLIC INFORMATION SESSION

You are invited to attend our public information session to learn the outcomes from the Dundas West-Bloor Mobility Hub Study and upcoming plans for Bloor GO Station. Representatives from GO Transit as well as the project's consultants will be on hand to answer questions.

Date: Monday, Dec. 10, 2012
Time: 6:30 to 8:30 p.m.
Location: Lithuanian House
1573 Bloor Street West

Project updates will be distributed as work proceeds. For more information, please visit gotransit.com/gts.
