

GEORGETOWN SOUTH PROJECT CONSTRUCTION UPDATE

The Georgetown South (GTS) Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Union Pearson Express (formerly known as the Air Rail Link) service between Union Station and Pearson International Airport. This project is one of the key elements of The Big Move.

Bloor GO Station Construction – Phase 2 Underway

Continuous Weekend Work July 12 to 14 and July 19 to 21

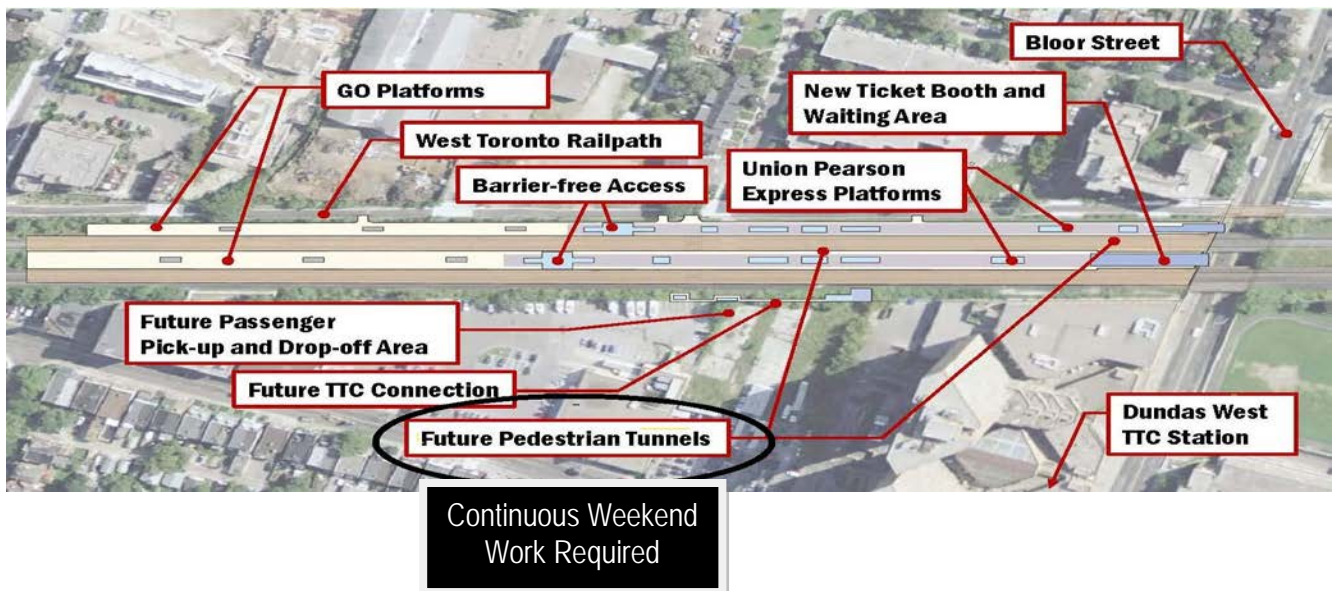

What's happening

- Bloor GO Station is undergoing a major improvement. We're installing pedestrian tunnels and making it fully accessible, as well as enhancing the existing pedestrian access from Bloor Street. The revamped station will also include a stop for the new Union Pearson (UP) Express
- Phase 2 is underway with work on the platforms, station canopy and pedestrian tunnels
- Continuous work throughout the weekend is required to install the pedestrian tunnels as we can only complete this when trains are not operating. This work includes removing the tracks, excavating each tunnel area, lifting and securing tunnels in place, back filling the soil and reinstating the tracks.

Hours of operation and how this work will affect you

- Work will begin as usual at 7:00 a.m. on Friday July 12 and Friday July 19. Work will continue overnight, throughout each weekend and finish at 5:00 a.m. on Monday.
- Nearby residents can expect some noise associated with excavation activities and from construction vehicles
- Lights will be used during overnight hours and they will be set up away from nearby residential windows
- There are no planned impacts to the West Toronto Railpath
- If the weather does not cooperate, this work will be rescheduled to another weekend in July.

Thank you for your continued patience.
