

## Keele Station Escalators out of service until October 2020

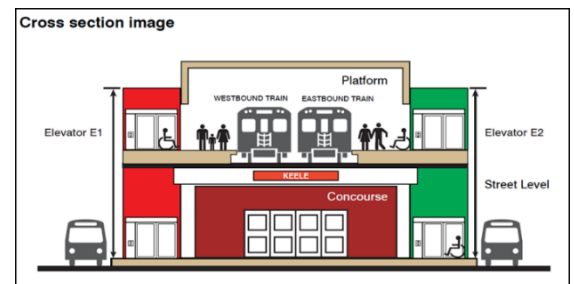

**Dates:** Friday, September 4 – October 2020

\*Content / timeline accurate at time of printing

### What we are doing and why?

As part of the Easier Access Program, the TTC is installing elevators to make Keele Station accessible.

In order to carry out this work, terrazzo tile needs to be installed in the station including in front of both escalators that take customers to the Line 2 subway platforms. Keele Station's escalators will be out of service for approximately a month for this work. The escalators to the Line 2 platforms will remain open for customers to use as staircases. For customers requiring an accessible alternative please travel to Jane or Dundas West stations.

### Work details

- The tile work will take place on the main entrance level of Keele Station in front of both escalators that take customers to Line 2's east and westbound platforms. The escalators to the Line 2 platforms will remain open for customers to use as staircases. Customers who require an accessible alternative to Line 2 should travel to Jane or Dundas West stations.
- The escalators will be out of service and used as staircases only starting at the beginning of subway service on Friday, September 4, 2020 and will remain out of service for approximately one month.
- Efforts will be made by on-site personnel to keep noise to a minimum.
- There will be no disruption to bus or subway service at Keele Station for this work. [Keele Station's bus loop closure](#) continues until late Fall 2020.

***Thank you for your patience as we work to make Keele Station accessible.***
