Online Community Meeting

1978-2002 Lake Shore Boulevard West

Marlin Spring would like to share updates to the proposal for a new residential development on this site.

The rezoning application for this development was originally submitted in December 2017. Since then, Marlin Spring and the consultant team have made revisions to address comments received by the community, the Design Review Panel and City staff. We look forward to sharing the revised proposal with you.
