

MAKING QUIET™ FOR WORKING,  
LEARNING AND LIVING SPACES

## The Story

Acoufelt™ is all about Making Quiet™ for working, learning and living spaces.

World class thought leadership drives the Acoufelt Acoustic FWC™ philosophy of delivering acoustic materials suitable for all three surfaces; Floor, Wall and Ceiling. Our industry specific innovative solutions eliminate compromise, allowing you to design for the ears as well as the eyes.

## Acoustic FWC™

The Acoustic FWC™ philosophy looks at every surface as an opportunity for noise minimization.

Every room is a cube with six sides: one floor, four walls and one ceiling. Six internal surfaces that contribute to either reflecting noise or Making Quiet™. Acoufelt's designs, treatments and proprietary capabilities are used cumulatively to provide integrated and holistic acoustic solutions.

## Sustainability is Standard

Acoufelt acoustic products are manufactured using a high percentage of recycled materials, making them fully recyclable at their end life, as well as able to meet a variety of global environmental accreditation labels including Declare, SCS Global, LEED and USGBC.

## #MAKINGQUIET is about Solutions

Making Quiet™ is about delivering on a promise. We take a holistic and integrated approach to solving our customers' acoustic problems, meaning we create solutions not products.

Acoufelt's acoustic expertise combined with advanced printing, cutting, bevelling and imagery design manufacturing methods enable us to offer a custom solution for the client.

# QuietPrint™ removes Compromise

QuietPrint™ applies print technology that colors the fiber with high precision, whilst ensuring air-gaps in the porous material remain open to absorbing noise.

## QuietBack™ is Foundational

The highest performing commercially graded acoustic carpet tiles in the Acoufelt floor offering feature QuietBack™; the holistic carpet construction optimized for noise absorption.

## Global Talent, Care and Knowledge

World class thought leadership drives our approach to problem solving and delivering innovative solutions. People, strategy and culture is at the heart of Acoufelt's international success. The Acoufelt Advisory Board of global industry leaders within the fields of acoustics, design, materiality, manufacturing, health and human factors has enabled us to excel in industry leadership.
