# INDICATOR GREEN SG SELECT™

---

## SPRAY PATTERN INDICATOR

### GENERAL INFORMATION

Indicator Green SG Select is a non-toxic, water soluble colorant that can be used as a spray pattern indicator. The super concentrated soluble granular formulation with rapid dispersion technology is easy-to-use and dissolves quickly. Color intensity may be adjusted by gradually increasing or decreasing the recommended application rate as needed.

### DIRECTIONS FOR USE

As spray indicator: Apply Indicator Green SG Select as a tank mix with pesticides, herbicides, fungicides, fertilizers or other liquid treatment. Application rates will vary depending on turf color, turf height and spray application rates.

In general, mix 1 - 2 ounces per 50 gallons of spray solution to cover 1 acre. Fill tank 1/3 full with water and add Indicator Green SG Select. Agitate to ensure uniform dispersion. Add other actives and water as needed and continue agitation. Spot test and adjust colorant prior to full scale spraying.

### WARRANTY STATEMENT

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
