FLOWERS IN A WINDOW

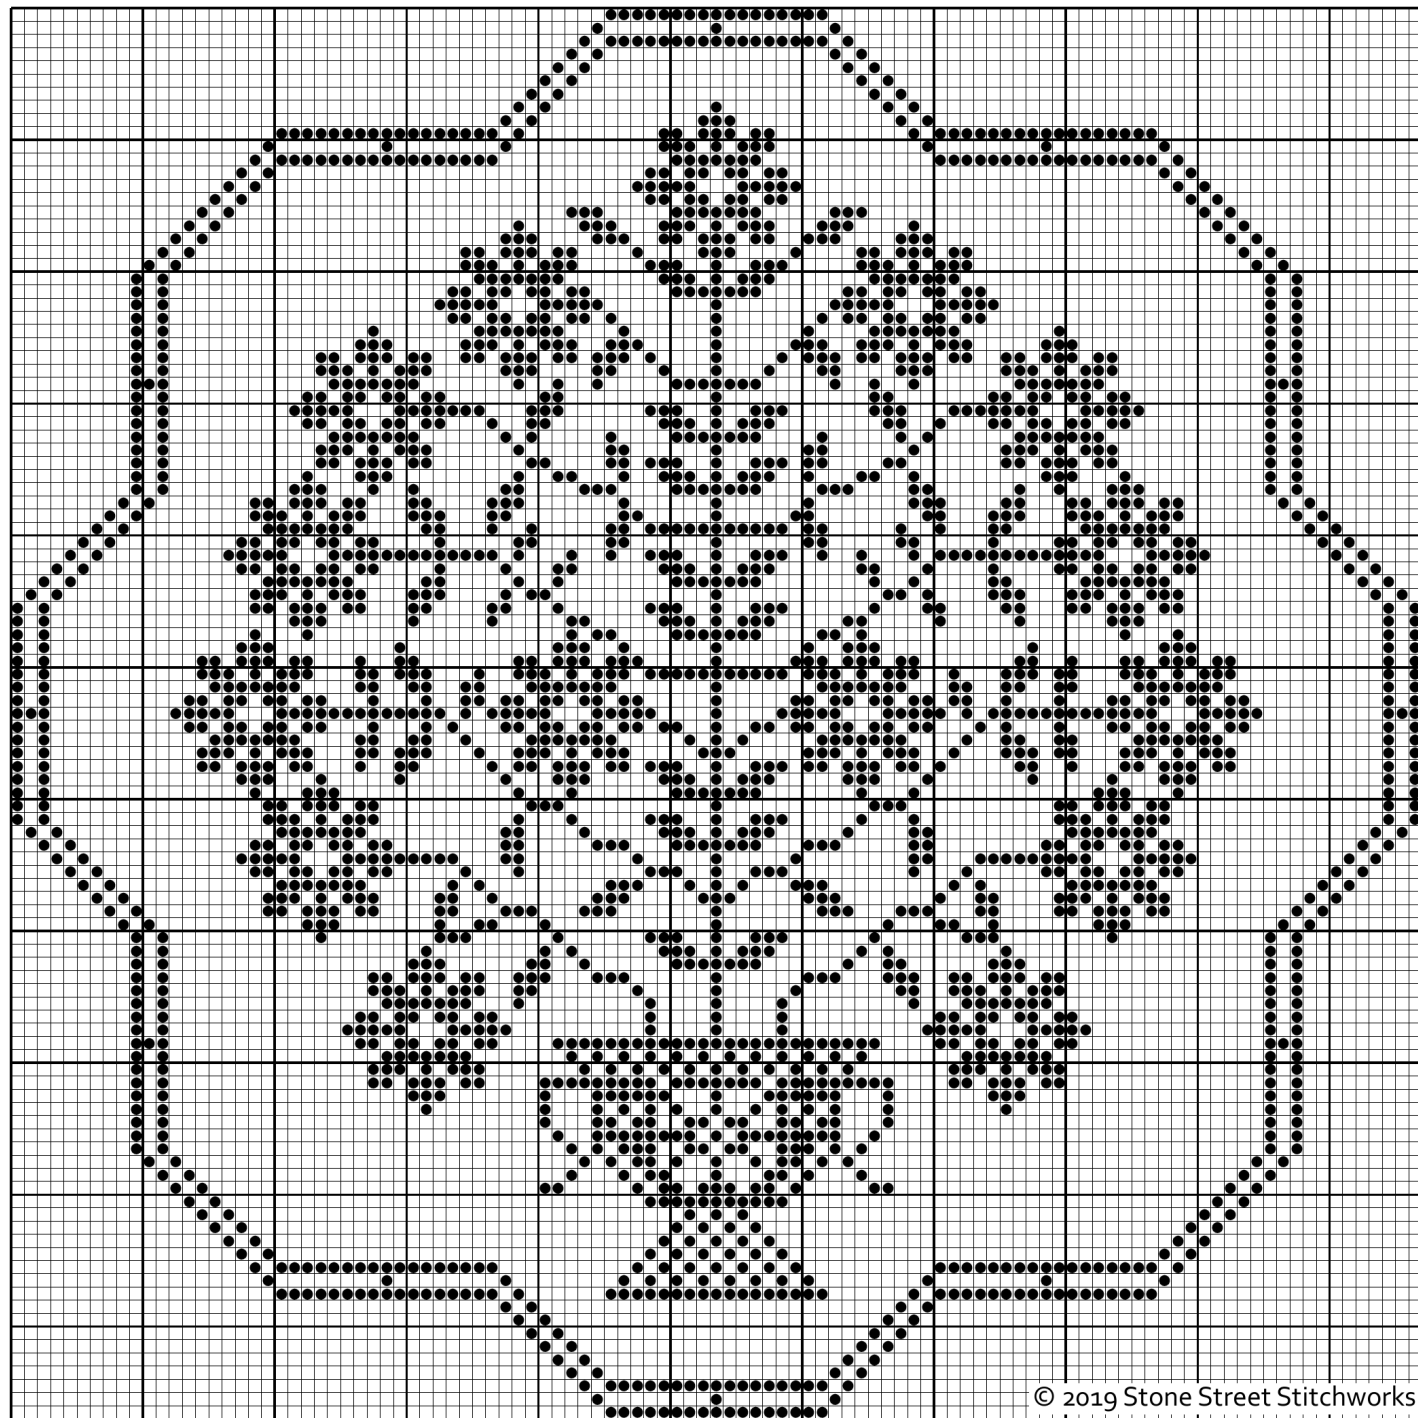

A complimentary chart by Stone Street Stitchworks.

Flowers in a Window features a floral motif found in antique Dutch samplers. The motif is surrounded by a modern, polygonal border to give the viewer the feeling of gazing back in time at a floral scene hundreds of years ago.

The design can be stitched in a multitude of colorways—antique, pastel, vibrant, or variegated/multi-colored—depending on your choice of fabric and thread.

Design Size: 107W x 107H; **Stitched Size:** 6" x 6" at 18 stitches per inch
