

Mary Phillips

CERTIFIED ADVANCED ROLFER™
rolfingslc.com

OVERVIEW

I have worked as a practitioner of Roling® Structural integration since 2003. I am moved daily by the way that this work can change the bodies and souls of my clients. My hunger for expanding my skill base has led me to learn from many teachers in the Roling SI community. My years of study have only deepened the mystery of how we heal and how we change. I feel so lucky to work in a field in which I get to constantly grapple with these questions. I hope now to begin the journey of teaching Dr. Ida Rolf's work to those interested in learning. In this way I want to be a part of how Structural Integration moves into the future.
