

MOGOLLON AIRPARK

MOGOLLON AIRPARK HOMEOWNERS ASSOCIATION RULES FOR RADIO CONTROLLED AIRPLANES

Radio controlled airplanes are subject to the following restrictions:

1. Do not operate within 200' of the runway or at an altitude of more than 200'.
2. Park vehicles on the public streets and walk to the area where the airplanes will be operated.
3. Persons operating R/C aircraft will be required to have a communications receiver and monitor frequency 122.9 continuously. Operations will be suspended when aircraft are approaching for landing or taxiing for takeoff.

The area designated for R/C operations will be on Tract B, tie-down C.

These restrictions were approved in 1995 by the Board of Directors
