## TATTOOING

### Ombre Brows

POA

The Ombre brow technique is the ultimate bold look for clients wanting sharp and defined brows. The Ombre shading technique is performed with a cosmetic tattoo machine to create a beautifully soft transition in dark to light blending starting from the tail of the brow. The result of this procedure aims to imitate a beautifully powdered makeup look with a perfectly defined shape.

### Combination Brows

POA

Combination brows are perfect for clients wanting to achieve a more powdered look to their natural brows. This procedure combines both microblading and Ombre shading techniques using a cosmetic tattoo machine. This look aims to achieve natural hair strokes along with the depth of shading in the tail of the brows.
