

## February 2018 Newsletter

Dear Stall Holder

Thank you for your support and feedback over the last two weeks. Without doubt the move has been a great success and with many positive comments both to Bev and to Rotarians on duty, it is exciting to be able to move almost back to our original home.

Some housekeeping

### SITE SET-UP

Earlier this week Market representatives met with Albury Council officers to review the market operations following the relocation. The agreement we have with Council specifies no site activity until 7.30 am, based on our experiences over the last two weeks we asked that this be reviewed and were told that was not possible, consequently as from this Sunday 18th February we ask for your understanding to not set up until 7.30. We realise that many stall holders will be unhappy with this, as we areas well and we will continue to explore what can be done to allow site setup at an earlier time. Turning on the Rotary installed lighting will indicate stall set-up can proceed

### PARKING IN THE OUTSIDE AREA

In coming weeks we have arranged for some specific exhibits in the Outside Area, therefore we would ask that site holders park their vehicles on the top floor of the carpark rather than in the outside area, rows P, L M and N. Your co-operation would be appreciated.

### DOGS ENTERING THE MARKET

During the numerous conversations we have had with site holders over the last six months a common comment has been the issue of dogs entering the market. At one of our recent meetings the decision, for safety reasons was made to not allow dogs into the market from the end of February.

### TOILETS

Many of you will have noticed that the work on the toilet area is progressing, we expect this to be completed within the next two weeks. We would like to thank LiveBetter organisation (previously Age Concern) for their readiness to help with the provision of toilets on a temporary basis

### SUNDAY FEBRUARY 18

The City2City Fun Run from Albury to Wodonga is on this Sunday starting from QE2 Square between 8.00 am and 8.30 am. The run goes down Dean Street and then into Wodonga Place, those streets will be closed for some of Sunday. We are not sure what impact this will have either for visitor traffic or site parking.
