

## *Harvest Partners – 280 Park Avenue, New York, NY*

Founded in 1981, this New York City-based private equity firm has been investing in middle-market companies for more than 30 years. When they decided to relocate their offices to a full floor at 280 Park Avenue, they retained BGA to assist them with the move. Aspects of the project include:

- A floorplan layout organized along traditional lines with perimeter executive offices and support staff in custom, wood-paneled desks
- The use of mahogany wood floors, paneling and molding, in conjunction with pendant and cove light fixtures, to further enhance the traditional culture and image of the firm
- A Boardroom centrally located near the Entrance and Reception Area, and featuring the firm's collection of vintage posters
- A floorplan layout that considers future expansion as the surplus floor space is currently used by a sub-tenant. This surplus space can be easily re-connected at a later date
