

*The Atrium At Ramsey,
535 Route 17 North, Ramsey, New Jersey*

Location was a key attraction to the developers who transformed this former one-storey warehouse into an Office Building. This 66,000 SF building is located along Route 17, a major thoroughfare in Northern New Jersey, which is known for its many Office Parks. Noteworthy features of this project include:

- Creation of a new curtain wall sheathing system for the former concrete block building, with a distinctive entrance pavilion for tenants
- Design of a centrally located, sky-lit atrium housing shared tenant services
- Design of an Office layout for the building's anchor tenant, Pezrow, a large food brokerage firm
