

STARWOOD REAL ESTATE INCOME TRUST

U.S. SELECT-SERVICE PORTFOLIO | VARIOUS, U.S.

INVESTMENT HIGHLIGHTS

- A fully renovated, premium-branded, stable, select-service portfolio totaling eight hotels and 1,057 keys
- The portfolio is high-quality, with a weighted average of just three years since the most recent renovation
- Four of the properties are located in FL; two in Tampa which benefit from the close proximity to the Tampa Airport, and two in Ft. Myers, where the metropolitan statistical area population has grown at four times the rate of the broader U.S. and at the highest rate in the state of FL¹
- The remaining properties are located in Boulder, CO, which benefits from its close proximity to the expanding Google LLC presence, and other attractive submarkets with stable and consistent demand drivers including Knoxville, TN; Little Rock, AR; and Cleveland, OH

MARKET HIGHLIGHTS

- Located in favorable markets, with a concentration in high-growth sunbelt cities, while also offering geographic diversification
- On a weighted average basis, the markets in the portfolio have grown at double the pace of the broader United States in both population and employment over the last five years¹

SUMMARY OF RISK FACTORS

An investment in Starwood Real Estate Income Trust, Inc. involves a high degree of risk. These securities are not liquid instruments. You should purchase these securities only if you can afford the complete loss of your investment. You should carefully read the information set forth in the “Risk Factors” section of the prospectus before buying our shares. Risks include, but are not limited to:

- We have no prior operating history and there is no assurance that we will achieve our investment objectives.
- This is a “blind pool” offering and thus you will not have the opportunity to evaluate our investments before we make them.
- Our portfolio principally will be comprised of properties, and debt secured by properties, located in the United States but may also be diversified on a global basis through investments in properties and debt secured by properties, outside of the United States, with a focus on Europe.
- Since there is no public trading market for shares of our common stock, repurchase of shares by us will likely be the only way to dispose of your shares. Our share repurchase plan provides stockholders with the opportunity to request that we repurchase their shares on a monthly basis, but we are not obligated to repurchase any shares and may choose to repurchase only some, or even none, of the shares that have been requested to be repurchased in any particular month in our discretion. In addition, repurchases are subject to available liquidity and other significant restrictions. Further, our board of directors may modify, suspend or terminate our share repurchase plan if it deems such action to be in our best interest and the best interest of our stockholders. As a result, our shares should be considered as having only limited liquidity and at times may be illiquid.
- We cannot guarantee that we will make distributions, and if we do we may fund such distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital or offering proceeds, and we have no limits on the amounts we may pay from such sources.
- After the escrow period, the purchase and repurchase price for shares of our common stock are generally based on our prior month’s NAV and is not based on any public trading market. While there is independent periodic appraisals of our properties, the appraisal of properties is inherently subjective, and our NAV may not accurately reflect the actual price at which our properties could be liquidated on any given day.
- We have no employees and are dependent on Starwood REIT Advisors, L.L.C. (the “Advisor”) to conduct our operations. The Advisor will face conflicts of interest as a result of, among other things, the allocation of investment opportunities among us and Other Starwood Accounts (as defined in the prospectus), the allocation of time of its investment professionals and the substantial fees that we pay to the Advisor.
- This is a “best efforts” offering. If we are not able to raise a substantial amount of capital in the near term, our ability to achieve our investment objectives could be adversely affected.
- There are limits on the ownership and transferability of our shares.
- If we fail to qualify as a REIT and no relief provisions apply, our NAV and cash available for distribution to our stockholders could materially decrease.
- The acquisition of investment properties may be financed in substantial part by debt. The use of leverage involves a high degree of financial risk and will increase the exposure of the investments to adverse economic factors.
- Investing in commercial real estate assets involves certain risks, including, but not limited to: changes in global, national, regional or local economic, demographic or capital market conditions; increases in interest rates and lack of availability of financing; vacancies, fluctuations in the average occupancy and room rates for hotel properties; and bankruptcies, financial difficulties or lease defaults by our tenants.
- Management fees and distribution fees are substantial and will reduce your ability to profit from the investment.
- A change in U.S. tax laws could adversely impact benefits of investing in our shares.
- Disposition of U.S. real property interests by non-U.S. persons is subject to income tax withholding. As a result, investment in our shares may not be appropriate for non-U.S. investors.
