Signature of Parent/Guardian _____ Date _____

Trinity Lutheran School Medical Policy

Trinity Lutheran School maintains compliance with New York State requirements for health exams and immunizations.

Records of physical examination and immunization are required for all new Trinity students. Physical examination forms and notification of immunization requirements will be provided to families annually. Students will not be allowed to attend school if proof of examinations and immunizations are not submitted when required.

Please inform our school nurse of anything concerning the general health of your child, such as vision or hearing problems, allergies, etc. All injuries, whether sustained in or out of school, should also be brought to the attention of the school nurse.

The Health Office will notify a parent in instances of illness or injury to a student. Our facilities cannot accommodate extended care of a child. Parents must arrange for the child to be picked up promptly.

Parents will be notified in writing of any contagious condition occurring among their child's school population.

Medication can only be administered by the school nurse, and only when a written doctor's note and written parental permission to administer medication is received. The medication must be in the original bottle or container will be kept in the Health Office.

All children who participate in a school sport must have an annual physical before they can play.
