Position Task Book

GTARC Position Task Books (PTBs) have been developed for designated National Interagency Incident Management System (NIIMS) positions. Each PTB lists the competencies, behaviors and tasks required for successful performance in specific positions. Trainees must be observed completing all tasks and show knowledge and competency in their performance during the completion of this PTB. Task books must be completed in order as shown in Figure 1.

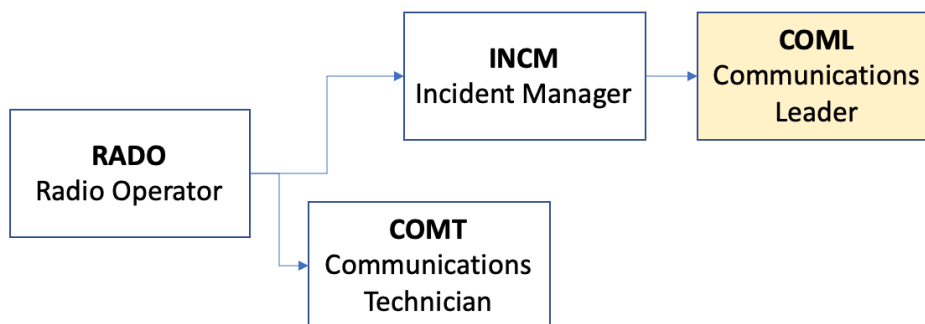

Figure 1 – Task Book Order of Precedent

Trainees are evaluated during this process by an individual that has final certification for the task book qualification the trainee is seeking or higher. Specifically,

- **RADO evaluator** must be a certified RADO or higher, with final approval by a COMT, INCM or COML
- **COMT evaluator** must be a certified COMT or higher, with final approval by an INCM or COML
- **INCM evaluator** must be a certified INCM or higher, with final approval by a COML
- **COML evaluator** must be a certified COML with final approval by the GTARC Board

The trainee's performance is documented in the PTB for each task by the evaluator's initials and date of completion. An Evaluation Record will be completed by all evaluators documenting the trainee's progress after each evaluation opportunity.

Successful performance of all tasks, as observed and recorded by an evaluator, will result in a recommendation to the agency that the trainee be certified in that position. Evaluation and confirmation of the trainee's performance while completing all tasks may occur on one or more training assignments and may involve more than one evaluator during any opportunity.

INCIDENT/EVENT CODING

Each task has a code associated with the type of training assignment where the task may be completed. While tasks can be performed in any situation, they must be evaluated on the specific type of incident/event for which they are coded. For example, tasks coded "I" must be evaluated on an Incident or Public Event. Performance of any task on other than the designated assignment is not valid for qualification. The codes are defined as:

O= Other: In any situation (Classroom, simulation, drill, daily job, incident or public event)

I= Incident: Task must be performed on an incident or public event. Large scale drills may be used for this category at the discretion of a COML.

Each "I" task requires three (3) separate and distinct events to be evaluated (e.g. a RADO must satisfactorily "Act as NET CONTROL for weekly check-in's, drill, or public service event" on three different occasions.

INSTRUCTIONS FOR THE POSITION TASK BOOK EVALUATION RECORD

Evaluation Record

Each evaluator will need to complete an Evaluation Record (ER) for each Incident / event. Each ER should be numbered sequentially. Place the number on the top of the ER, and then place the same number in the column labeled "Evaluation Record #" on the Qualification Record for each numbered task the trainee has satisfactorily performed.

Trainee Information:

Record the required information

Evaluator information:

Record the required information

Incident / Event Information:

Provide the specific information re: the incident / event, including the name of the event, date, duration and trainees' specific role / accomplishments on this incident / event.

Evaluators Recommendation:

For 1-3, initial only one line as appropriate. This will allow for comparison with your initials in the Qualification Record.

Comments: Additional information specific to the evaluator's recommendation. The evaluator should note any deficiencies, additional assignment needs, or additional focus areas that were identified. Record additional remarks/recommendations on an Individual Performance Evaluation, or by attaching an additional sheet to the Evaluation Record.

Evaluator's Signature: Sign here to authenticate your recommendations.

Date: Document the date the Evaluation Record is being completed.

Evaluator's Relevant Qualification (or agency certification): List your qualification or certification relevant to the trainee position you supervised.
