Agreement of pricing between Stud and Female Owner is as Follows:

Stud Fee: _____

Return In House Progesterone Testing: \$50.00

STUD SERVICE & BREEDING INFORMATION: We would like to know when your female comes in heat. Keep track of when the first signs of the female's heat cycle begins, (vulva swelling, starts bleeding/spotting). This will give us an idea when she will be ready to ovulate. Write this down on the calendar!

You may have your female progesterone tested by your vet and pick up the semen from us or have it shipped to you or your vet. Then you can artificially inseminate yourself. If you would rather board your dog with us, we will do the progesterone testing, and breeding ourselves.

This agreement is made between these two parties, on said date:

_____ Stud Dog Owner / Date

_____ Female Dog Owner / Date

Artificial Insemination

We do offer shipped semen. The shipping cost is in addition to the stud fee. Please let us know as soon as possible when your female is starting to go into heat so that we can plan. Please contact me at mike@iambulldog.com or 903.440.0553 with any questions that you might have.

For payment, we accept PayPal, Venmo, Zelle, Bank Wire Transfer, Western Union, Cashier's Check or Money Order. Whichever payment method is easiest for you.
