

Lift can be positioned close to the wall due to the small outrigger footprint

Odysey™ 34 lifts reach a working height of 40'.

Revolutionary mast design provides the most stable and compact mast in the industry.

Base rests on 6 wheels; 10" center wheels allow the lift to pivot on a dime.

Can be pushed through a standard doorway without a tilt-back requirement.

Odysey 34 offers both visual and audible instructions for quick setup.

Controls at the platform are wireless.

Innovative cage design provides easy entry and exit with the lowest entry height (6") within the industry.

Laser locator for correct positioning, allows the operator to move the lift to the right place the first time.

SPECIFICATIONS

Capacity	350#	(159 kg)
Construction.....	Aluminum/Steel	
Dimensions	29"W x 75½"L x 79"H	(74 cm x 192 cm x 201 cm)
Weight.....	1350#	(614 kg)
Max. Platform Ht.	34'	(10.36 m)
Max. Working Ht.....	40'	(12.19 m)
