

ACA REPORTING DOESN'T HAVE TO BE HARD

THE MZQ ADVANTAGE

MZQ Consulting, LLC is a premier ACA Reporting and Benefits Compliance company. Founded in 2014 by an ERISA attorney and a systems engineer, MZQ combines over forty years of compliance and technical expertise to accurately generate Forms 1094-C and 1095-C. This is what sets us apart.

MZQ specializes in ACA Reporting so we are able to provide our clients with the highest possible level of service. Our concierge model of client service ensures you have an outstanding experience. In fact, not one of our ACA reporting clients have ever received an unanticipated employer mandate penalty! It's called the MZQ Advantage.

HOW DO WE DO IT?

Each MZQ client receives a dedicated ACA Reporting Specialist to guide you through the process, from helping you gather your payroll and coverage data, to e-filing with the IRS. Our ACA Specialists are highly-trained and always available to help, ensuring you have the best possible experience, while minimizing your effort. Save time and focus on what you do best; let your ACA Reporting Specialist make sure your data is processed on time.

Our proprietary software is designed in-house and guided by the knowledge of our ERISA attorneys. It combines employee data and health plan information to generate the forms, without ever asking for codes. That's right... just send us the data and we can accurately code the forms for you.

ACA TRACKING SERVICE*

Identifying Full-Time Employees is an important and sometimes complicated process, but necessary to determine which employees must be offered benefits. Under the Affordable Care Act, employers must provide offers of coverage to employees that work an average of 30 hours per week. For employers with variable-hour employees, identifying who should receive offers of coverage can be difficult.

MZQ makes it easy. Our Tracking Service provides reporting for both current employees and new hires to determine if, based on variable hours or fluctuating work schedules, they qualify as “Full-Time” under the Employer Mandate.

**ACA Tracking is a stand-alone service.*
