

Advisory Committee on Stormwater and Drainage Improvements and Flood Resiliency

Meeting Agenda

Wednesday, December 2, 2020

9:00 a.m. – 10:00 a.m.

Agenda/Discussion Items

- ❖ Public Comment
- ❖ Opening Remarks
 - Elijah J. Williams, Executive Director, The Energy Corridor District
- ❖ Recap and Follow-Up from the August 2020 Advisory Committee
 - Elijah J. Williams, Executive Director, The Energy Corridor District
- ❖ Energy Corridor District's Flood Resiliency Status Report
 - Mr. Scott Saenger, P.E., Jones and Carter
 - Ms. Erin Williford, P.E., Jones and Carter
- ❖ Update on the Buffalo Bayou and Tributaries Resiliency Study Interim Report
 - Elijah J. Williams, Executive Director, The Energy Corridor District
 - Mr. Scott Saenger, P.E., Jones and Carter
 - Ms. Erin Williford, P.E., Jones and Carter
- ❖ Questions and Closing Remarks

Committee's Purpose

1. To consider, review, and better understand the impact of stormwater and drainage improvements and flood resiliency efforts in and around the District, which:
 - a. Have been recommended and/or implemented by various entities, and
 - b. Similar projects in the planning cycle to be implemented at a later date.
2. To consider opportunities for the District to:
 - a. Partner with other entities to perform related and relevant engineering analysis, and
 - b. Seek other areas of opportunity (additional improvements, partnerships, funding) for District engagement to promote higher levels of flood protection and resiliency for the District.
3. To provide insights into District stakeholders' needs and consider the District's ability to formally share information on such projects with stakeholders.
