

Good Evening Folks: Just got home from our first club meeting of the year. We only had six members attend with several apologies for absence due to...whatever.

We had a couple of interesting discussion items come up.

Jim Miller Sr has begun the process of arranging the 2020 end-of-year banquet...I believe that this is the absolute earliest this club has ever had a discussion and a decision to initiate the planning for this December event. Thanks Jim for taking this project.

We are also in discussion with a club from New Mexico to have a club versus club event...that club has their meeting on January 16 and further information will be dependent on their meeting and decisions. The current plan is to have such an event at Roosevelt in April...our club has a two-day club tournament April 25 and 26, and the New Mexico club will fish the 25th in a format to pit Del Norte boats against theirs...should be interesting. We will probably establish a side-pot for the club vs club and maintain our regular tournament fees and methods; we will have to match the number of boats with the other club and establish a winner through aggregate weights and a big fish. Any way, still in the planning process...any ideas would be welcomed. Thanks to Alf Penland for initiating this contact and dialog.

Our first club tournament for 2020 will be at Roosevelt on January 25-26. We will launch out of the Ringtail Ramp at Windy Hill, and fish safe light (probably around 7:00am) till 3:00pm on Saturday and till 1:00pm on Sunday. We will handle registration at the campground and conduct the random draw on Friday evening...Coyote Camp area near the facilities. Make sure you check your fishing license to ensure you are current.

We currently have seven boats and three non-boaters identified:

Boater	Non-Boater
Ken Landry	Bill Pfeifer
Bob Bereiter	Jim Davis
Alf Penland	Wade Everett (guest)
Greg Taylor	
Jim Miller Sr	
Jim Miller Jr	
Angelo Messina	

Please let me know if you are interested in fishing this tournament...boater or non-boater, although as you can see we can use some non-boaters!!!

Regards...B.
