

ExoticTails Adoption Guidelines

- If you adopt from us and find yourself unable to properly care for your animal in the future, you must surrender the animal back to ExoticTails Rescue and Sanctuary Inc.
- Our animals are not to be used for breeding (most of them have had a rough time already and deserve to just be loved).
- Any rescued animals including rats and mice and also rabbits adopted from ExoticTails are not to be used as feeders. If we happen to have feeders, they will be sold as feeders and will not be available for adoption.
- If you do not purchase a setup from us, you must bring your setup with you so we can ensure it is properly set up for your new pet. If you cannot bring it, one of our adoption specialists can come to your home and check it out. **UNDER NO CIRCUMSTANCES WILL ANY ANIMAL BE ADOPTED WITHOUT THIS PROCESS!**
- If your setup fails the adoption specialist's requirements, you will have 48 hours to meet these requirements. After that time, if you have not met the standards, your pet will be available to the next person.

ExoticTails Rescue and Sanctuary

- We reserve the right to inform animal protection agents of any animal neglect or mistreatment we discover of our adopted pets.
- All members of the adoptive family will need to be present for an educational session with one of our animal specialists before taking their new pet home.
- You must complete two visitations with your prospective pet prior to taking it home on the third visit. We suggest all members of the household attend these visitations.
(FISH EXCLUDED)
- We reserve the right to refuse you a pet at any time without any explanation. Prospective adoptive families are selectively chosen for our special animals.

*All profit gained from adoption fees and accessories bought goes right back into feeding and caring for the animals living in the sanctuary.
