

# HOVER MOWER

## RC190-BS550 19" Cutting Swath

POWERED by

### Cutting Blades

## THE ULTIMATE IN MOWING MANEUVERABILITY

This lightweight yet powerful hover mower floats on a cushion of air and is designed to provide excellent cutting performance at angles up to 45 degrees for a wide variety of commercial, golf course and residential applications. It's extremely maneuverable as it glides over grass surfaces and it mulches as it cuts so the fine pieces fall easily to the soil surface.

The 52" handles move freely for an effective reach on sloped areas and near water lines. A convenient locking lever holds the handles in an upright position when not in use. An ergonomically designed grip provides comfortable and stable control while the engine brake lever is easily held for added safety.

### OPTIONAL ACCESSORIES

Transport Wheels / 18" Handle Extension / Lift Kit

### FEATURES & SPECIFICATIONS

ENGINE	Briggs & Stratton 550ex OHC 5.5 Gross Torque @ 3600 RPM	<b>WARRANTY</b> (Non-Engine Components)	
		2 Years Residential	1 Year Commercial
DECK	ABS Injection Molded Plastic Chemical and UV Resistant	<b>CUTTING WIDTH</b>	19" (48 cm)
