

MSMSS00004

Operate a High Pressure Water Jetting System (Release 1) – 2 DAY COURSE

The MSMSS00004 course is designed for the competent high-pressure water jetting operator. This operator may have completed the MSMSS00003 trainee operator course and upgrading to the MSMSS00004 skill set. Or the attending operator may have previous high-pressure water jetting experience. This course complies with the High-Pressure Water Jetting Standards AU/NZ 4233.

The MSMSS00004 – Operate a High Pressure Water Jetting course will provide participants to further advance their high pressure water jetting skills and knowledge to independently operate, coordinate, communicate, manage and complete high pressure water jetting tasks, in a safe and efficient manner. The MSMSS00004 course, can be tailored to suit your business needs.

Entry Requirements

- Evidence of prior high-pressure water jetting experience
- Previously completed MSASS00002 – High Pressure Water Jetting Assistant course
- Previously completed MSMSS00003 – Use High Pressure Water Jetting Equipment

Each student must have a Unique Student Identifier (USI) which is available free of charge from this [LINK](#). Please download the complete course notes [HERE](#).
