

The Client

Our client is a leading EMS billing company in the United States.

Billing provider drives up revenue for emergency/ambulance services companies

Business Requirement

Balancing the operations of EMS and ambulatory services with business and cash flow needs can be a difficult task. Our client was facing margin pressures with rising operational costs, and were looking for a solution that could provide cost savings, as well as develop operational efficiencies and increase collections. The client needed:

- A consistent stream of cash flow and a process driven claims processing,
- Ensuring that compliancy issues addressed effectively and quickly,
- Secondary claim visibility and follow up,
- Secure client access to the claim system
- Data analytics/dashboard and
- Consistent denial/rejection/error claims follow up.

Major challenges were

To grow profitably, the client wanted to improve cash flows by optimizing their revenue cycle by tackling:

- Very high A/R days – 90 days
- Higher Denials - up to 33%
- A very high turnaround time (TAT) of around 72 hours
- Realizing Cash Per Trip by reduced DOS
- Increasing Collection ratio – Unmet cash goals at 94%

Beyond Possible

ApexonHealth extended the client's enterprises by transforming their revenue cycle operations, thereby increasing collections, accelerating cash flow and improving customer service while lowering costs.

ApexonHealth's Solution
