Faith. Health. Happiness.

December 9, 2020

Dear Residents, Family Members, Resident Guardians, and Supporters of Homme Home:

We have received results from the testing rounds from the week of November 30, 2020 from the State of Wisconsin's contracted laboratory. The testing indicated no employees or residents tested positive for COVID-19.

Since our last communication we have had 1 additional CBRF resident recover and 1 additional staff recover from COVID-19, therefore we currently do not have active cases on the Wittenberg Campus.

All residents are being monitored for signs and symptoms of COVID-19 three times daily for signs and symptoms of COVID-19, and POAs updated individually with any change of condition specific to an individual resident. We continue to test all staff twice weekly for COVID-19 per Federal Directive.

For visitation, per our Federal Regulations, Homme must follow the positivity rate of COVID-19 in Shawano County to offer inside visitation, in which the positivity rate must be below 10%. As of Monday December 8, Shawano County's positivity rate is at 12.8%, which is an improvement as earlier this fall the positivity rate was over 28%. We continue to monitor the positivity rate through CDC. Compassionate care visits will be offered on a case by case basis and must comply with our regulatory guidelines, such as masking, social distancing, and must be scheduled in advance.

As it relates to Christmas presents for the residents, we ask that any gifts be delivered to Homme before December 17, 2020 to ensure that gifts are quarantined prior to delivering to the residents.

To date this is the following level of COVID-19 at Homme Home of Wittenberg Campus:

	Active Cases	Recovered Cases
CBRF Residents	0	7
Nursing Home Residents	0	19
Employees	0	47

(Employee results include contracted staff)
