 - a. Contact your Account Representative to create and send this report to you
3. Lifescan Call Center
 - a. The Lifescan Call Center can be contacted at any time to provide results via fax. Contact the call center at 847-423-8300 – and choose OPTION 1.

LabConnect Usage

Once logged into LabConnect, you will be presented with the following screen

The screenshot displays the Lifescan LabConnect interface. At the top left is the Lifescan Labs logo. To its right is a dropdown menu showing 'LIFEEST: LIFESCAN TEST COMPANY'. Further right, it says 'Logged in as LIFEEST: LIFESCAN TEST COMPANY'. Below the logo is a navigation bar with 'Results' selected, and other options: 'OrderCode Search', 'Admin', 'Help', and 'Logout'. The main content area is titled 'Inbox' and contains two buttons: 'Delete Selected' and 'Delete Page' under the 'Delete' heading, and 'View Selected' and 'View Page' under the 'View' heading. Below these buttons is a table with the following data:

	Accession	Client	Abnormal Flag	Report Status	Order Code Name	Collection Date	Patient ID	Name	Date of Birth
<input type="checkbox"/>	JW005499	LSTEST		Final	SMPS COVID-19 DETECTION	10/02/20	TESC042020	TEST, COVID	04/20/1928
<input type="checkbox"/>									

At the bottom of the page, there is a copyright notice: 'Copyright © 2020 BioMérieux Laboratory Data Systems, Inc. All Rights Reserved.'

To view the results, check the box on the left and click the View Selected button. This will open a new browser window with the lab result page. **You can select multiple boxes and the report will contain all of the results that can be printed or saved into a single file.

Patient Name		Accession	Ordering Physician	Client/Location
TEST, COVID		JAD061490	Lipsitz, Sam	LIFESCAN TEST COMPANY
DOB/Age	Gender	Room #	Client No.	5255 GOLF ROAD
04/20/1920, 100	MALE	TEST	LATEST	SKOKIE, IL 60098
				847-423-8300

Tests	Results	Reference Range	Units	Lab
TEST ONLY				
SARS COVID PCR DETECTION				
SARS COVID PCR DETECTION	NEGATIVE			

* INTERPRETATION
 Negative results are indicative of the absence of SARS-CoV-2 RNA. A negative result could result from the following: no SARS-CoV-2 infection, a sample that contains a viral titer lower than testing capabilities, incorrect sample handling, or presence of sequence variants in the assay target regions. Negative results do not preclude SARS-CoV-2 infection and should not be used as the sole basis for

From this page, you can print or save the report.

LabConnect has a search capability that can filter results to a specific subset. To access the search function, mouse over the Results Tab and Choose Report Inquiry.
