### Become a Junior Explorer Docent for Friends of Edgewood

Help children of all ages experience the wonder of nature. No special expertise or botanical knowledge is required to be a Junior Explorer Docent. Only a passion for nature and a love of kids.

You can choose the age group you relate to best. You can choose the field trips and the dates that fit your schedule. It is easy to prepare to be a Junior Explorer Docent:

- Join other docents on a hike to share information and interpretive techniques
- Attend enrichment programs and special training workshops
- Review our “how to “ resources
