Host a school-based vaccination event with Learn to Return!

COVID-19 vaccines are essential to getting back to school this fall with confidence and getting past the pandemic for good.

School districts can take the lead in supporting vaccine uptake in communities by hosting vaccination events this summer and into the next school year.

Why host a vaccination event with L2R?

- Reduce transmission of COVID-19 in schools and the community
- Offer vaccinations to students and families from a trusted community institution
- Minimize lost learning days
- Help level the playing field for vaccine access
- Drive vaccine uptake in the wider community

What does a school-based vaccination event look like?

- **Venue**
  - School gym, cafeteria, auditorium, parking lot
- **Vaccination team**
  - Local EMS agency, healthcare provider, mobile vaccine delivery team
- **Timing**
  - Before, during, or after school-hours
- **Duration**
  - 1-6 hours per event

To boost the vaccination rates in your school community, I ask you to first, if you have not already, stand up a vaccination clinic at your school sites.”

Miguel A. Cardona, Ed.D.
United States Secretary of Education

HIGHLIGHTS from recent vax events in Renton School District

- **697** people vaccinated!
- **3** high schools
- **6** events (1st & 2nd dose events)
- **5** minutes Average wait time (from arrival to dose)

School districts provide the venues and promote the event to students and families. L2R Program Managers help connect the dots, mobilize stakeholders, and facilitate a successful event.
