Announcing the L2R Impact Fund!

• L2R is excited to announce a new fund to support COVID-19 programming for schools, community-based organizations, and local health jurisdictions.

• The **L2R Impact Fund** is intended to provide support for funding gaps or new ideas to increase equitable engagement in school-based K-12 COVID-19 testing and vaccination services across WA.

• Applications involving **community-based organizations or partnerships with community-based organizations** are highly encouraged.

• Applications for Funding will open on December 9.

• Complete the [Request for Information Form](#) and attend the [Informational Meeting and Q&A](#) to stay up to date and learn more!
Who can apply?

In order to receive funding from the L2R Impact Fund your group must at a minimum be:

• Working in Washington State,

• Able to use the funding before the end of June 2022,

• A school, community-based organization, local health jurisdiction, or a partnership including one or more of these;

• Addressing a gap and/or supporting a new idea to increase equitable engagement in K-12 COVID-19 testing and vaccination services.

We strongly encourage applicants to engage and foster partnerships with community-based organizations.
What is an example of something that has received funding? What are COVID-19 testing and vaccination “services”?

- We have kept this definition purposefully broad!
- No one knows your communities’ needs better than your community.
- Ideas to spark inspiration could include:
  - Mobile or static testing and/or vaccination programs
  - Isolation & quarantine services (meal delivery, home care, etc.)
  - Services to increase the resiliency of testing observers or testers
- If a need:
  - Address a gap or is a new idea, and
  - Increases equitable engagement with COVID-19 testing and vaccination services in a K-12 setting, then APPLY!
### What will the application process look like?

L2R Impact Fund: Application for Funding

Learn to Return (L2R) is excited to present the L2R Impact Fund Application for Funding. The L2R Impact Fund is available to support schools, community-based organizations, and local health jurisdictions to increase equitable engagement in school-based K-12 COVID-19 services across Washington State. Please complete the following to submit an application to receive funding under the L2R Impact Fund.

Your email

1. First and Last Name (Surname) *

Or click here! Application for Funding
What are the selection criteria?

The goal of the L2R Impact fund is to increase equitable engagement in K-12 COVID-19 testing and vaccination services.

• Selection criteria will be based on three categories:
  1. Minimum qualifications to apply,
  2. Equity (priority populations, hard to reach areas); and,
  3. Need (can you demonstrate this is a need and how your idea will impact it?)

• Priority populations include groups such as:
  • Black, Brown, Asian, Indigenous (BBAI), Black, Indigenous, People of Color (BIPOC), Migratory students and families, Persons with Disabilities, Unaccompanied Youth, youth experiencing homelessness, Out of School Youth, English as a Second Language students and families, LGBTQIA+, and Women and Girls, or any intersection including one or more of these.
Question and Answer
The **Application for Funding** is now open and available on our website ([learntoreturn.org/l2r-impact-fund](https://learntoreturn.org/l2r-impact-fund)).

We look forward to hearing from you!

Please visit our website and sign up via our [Request for Information Form](#) to receive updates on key dates and further communications. For any additional questions please contact your L2R Program Manager or the L2R Impact Fund Program Manager, Alyssa Shumaker ([alyssas@healthcommonsproject.org](mailto:alyssas@healthcommonsproject.org)).
