**Celebrating our 14th year of arts, education, community and culture.
Arts in Schools**

Greetings.

As you know, since 2002, TWW Inc.'s foundation is the ARTS.

Arts are essential in the development of individuals, and should be a major curriculum, and used within any curriculum to help students achieve. There are major studies that provided evidence of enhanced learning by increasing their learning, memory abilities, and achievement when students are involved in a variety of arts experiences. Individuals that engaged in artistic processing exhibit better performance in a subsequent memory task relative to those that engaged in non-artistic processing. One

of the great strengths of the arts is to help with creativity, give the mind alternate ways of thinking and processing.

Art Studies should be used in schools with the same importance as all educational courses. The arts are always facing budget cuts. The argument has and always will be, why? It is just as important as other subjects like Math, Science, History and so on. Some would argue that without the arts, courses could not stand on their own. Arts must be maintained in the school system because of the values the arts have in helping students' reach their full academic goals.

TWW Inc.'s commitment to the arts is the foundation in which we stand on. To that commitment, I wrote a paper in college to defend that core belief, and I wish to share with you. For your reading enjoyment, click on [Benefits of the Arts in Schools](#).

Once you finish reading, you will truly appreciate TWW Inc.'s complete commitment to serving our communities using the arts. We need to take more control of what we want in our school system, by making it our responsible to bring programs to schools. This is why your **tax-deductible** donation is so important.

Please share our information with your contacts, any school or organization you feel would support and/or benefit from our programs.

GREAT NEWS! Dance Program Returns!

TWW Inc. Dance program will be returning this May to P.S. 12 in Brooklyn's East New York community. The program will serve 75 students. The overall budget for the program is \$4,000.00. The school budget is \$2,000. Which allows us to do the minimum. So the \$2,000 balance is on TWW Inc. if we wish to provide more for the students.

FUNDRAISING FUN begins!

The funds we will raise will allow us to provide more for the students in the program, your donation will help the the students by providing them:

Youth!

Our dance programs are needed to help those youth face challenges with confidence, determination, and the feeling of being empowered, not to just achieve, but high achievers! To be proud!

Help us reach those students in need. Please help by contributing an amount of \$25, \$50, 100, \$500, or any amount of your choosing.

All tax-deductible contributions are truly appreciated.

[DONATE HERE!](#)

**More dance outfits
*Dance production on DVD. Each student will get a short documentary of their participation in the program, which includes their final performance.
*Buy educational books and DVDs to help build students' library.
Have a special dinner for the students & Parents.

Thank you for your support
