Job Description – Field Instructor

Join the Team! The New Jersey Sea Grant Consortium (NJSGC), a non-profit organization on Sandy Hook, is hiring part-time field instructors for their K-12 Education Program and Scout Program. NJSGC provides students and scouts with dynamic ocean science programs that may include but not be limited to outdoor experiential learning activities such as seining, interactive games, scientific demonstrations and laboratory experiments.

Join a great group of people that love the beach, the outdoors and sharing their knowledge with students to promote a love of environmental science. Gain hands-on educational experience and work in one of the most unique natural “classroom” environments in New Jersey, Gateway National Recreation Area-Sandy Hook Unit. Do you already have education experience? There are no grades or test administration required here! Just fun, informal instruction delivering pre-developed STEM-based curricula!

Position Description: As a Field Instructor, your job will be to lead school or scout groups and facilitate outdoor learning through Sandy Hook’s salt marsh and beach environments. Occasional classroom facilitation is needed for indoor laboratory learning activities. This is a great opportunity for anyone interested in a career in ocean sciences or education, or for those with previous teaching experience.

No prior experience is required, however a background in any of the environmental sciences, education, or knowledge of Sandy Hook is a plus. NJSGC will provide paid training to become familiar with the "outdoor" classroom, to learn local flora and fauna identification and the history of Fort Hancock. Weekend work is available and may be required.

Education, Experience, and Requirements: Interested candidates should be 18 years old or older. Send resume with cover letter by March 23, 2022 to Rosemary Higgins, College and Special Programs Coordinator, New Jersey Sea Grant Consortium, 22 Magruder Road, Fort Hancock, NJ 07732. email: rhiggins@njseagrant.org
New Jersey Sea Grant Consortium is an affiliation of colleges, universities, and other groups dedicated to advancing knowledge and stewardship of the Garden State’s marine and coastal environment. Our mission is to promote the wise use of New Jersey’s marine and coastal resources through innovative research, education, and outreach programs. Please visit our [website](#) to learn more.
