Environmental Action Civics Alliance

The “Alliance" is a community of organizations committed to ensuring that young people use the tools of democracy to help build sustainable communities.

FOUNDATIONAL GOALS

- Increase collaboration on environmental action civics
- Expand the number of young people getting civic experience addressing environmental issues
- Establish an official community of practice that is as diverse as our communities
- Create foundational documents and standards for professional development best practices
- Identify & pursue fundraising opportunities to expand the resources

If this work aligns with your organization's mission and values, we hope you will consider joining us as a part of the Alliance to advocate for environmental action civics as a tool for youth to address the many environmental issues we face.
