PUBLIC FORUM
Bob Cook, 212 Allen, addressed the council. He asked if the CID is approved tonight if the city would be involved with it. Is the 95 acres still being considered for park area? Mayor Moss stated that it is still on the plate. He asked if we had the finances for that with the economy and the surrounding towns all in a financial crisis. He also said that the school would lose taxes and they can’t afford to lose those taxes. He asked if the City would come back to the residents for more money to support our park systems. It is not right. We do not have the businesses to support a sales tax. He said that the school will lose $30,000 a year in taxes. He said that if this is approved don’t come back to him in 3-4 years to help pay for it.

Ron Brewer, 403 Sunnybrook, said he had 2 things on the CID. He quoted State Statute 67.010 regarding the budget for the CID and that they show a negative balance of $26,000 the 1st year. According to the state statute we can’t pass it because of that. He also quoted 67.1441 on removing property from the CID.

Mary Schillaci, 706 Springhill, said she was going to do what Mike Talley called housecleaning and ask Mary Schillaci a few questions. Mrs. Schillaci had a list of petitioners with her and asked how many had been verified. City Clerk responded that she did not have those records with her but it was about 492 or 496. When asked if any had been rejected the City Clerk replied yes and stated some reasons why they were rejected. Mrs. Schillaci asked how she received training for this or how did the City Clerk know what to do. The City Clerk responded that she consulted with the City Attorney and other City Clerks who had done these types of petitions before and Mrs. Schillaci then read the procedures. She also asked if the Men of Briarbrook had been billed for the City’s expenses yet. The City Clerk replied not at this time. Mrs. Schillaci then brought up the conflict of interest regarding the councilmen of Ward III voting on this ordinance stating it would be a conflict of interest according to the surrounding towns she called to get their opinion. She again raised the issue of their budget not being feasible. She then stated that she had gone through the 4 boxes of petitions and had the City Clerk make her copies of some signature pages. She then showed the City Clerk one signature page stating that the notary had not signed the petition. Mark stated that a notary at his work had notarized that petition and that the owner did sign it. Mary stated she was not questioning that the owner of the property signed it but the notary had not signed it so therefore it was not a legal document. She then handed out a quit claim deed and had the City Clerk read a statement from it. This property is owned by Hattison Trust but a Mildred J Baker signed it. When she asked the City Clerk to comment on it the City Clerk responded that she could not respond to it unless she had the whole petition and not just the signature page. The City Clerk explained that when Mrs. Schillaci went through the petitions she only requested certain pages from the petitions and that there were documents attached to the petitions and that unless she reviewed the whole petition she could not comment on them. Mrs. Schillaci stated that we needed to go to each deed for all the properties. She also questioned about notaries who had signed petitions and then turned around and notarized other party’s signatures on the petitions. She stated that it was against notary rules and was not allowed since they had a personal interest in the CID. She then stated that she had over 35 signature pages that were in question and that was a small number compared to what was in the boxes and that now there were not enough legally notarized petitions to go forward with this ordinance. She then stated that her family was being harassed and threatened because she was asking questions about the CID. Mrs. Schillaci then asked the Mayor to bring in a 3rd party investigation. She has talked to Dean Dankelson and Sheriff Archie Dunn regarding this. Mr. Dankelson recused himself and would appoint a special prosecutor if warranted. She again asked if the Mayor would allow the Sheriff to do an investigation. She stated all she needed was one to disqualify what the City Clerk had done. She stated that she had already called the Secretary of States office and has a formal complaint on the notaries.

CHAMBER OF COMMERCE REPORT
Gary Stubblefield addressed the council and reported that their goal for membership this upcoming year is 100. They will be working hard on that with phone calls and mailing lists. They are also going to get badges for their members. Their next meeting will be 3/4/10 at the Police Station.

P&Z CASES
Case #10-01 – Special keeping permit – 114 Foursome Lane – Russell Neal. Mayor Moss opened the public hearing at 7:20 PM. Mr. Neal reported that you need a license if you have more than 3 females not 2. They have applied for a license with the Mo. Department of Agriculture. They also have a family member that will take the boxer and their daughter took her dog with her so they now have 4 dogs. They would appreciate the council’s consideration in giving them time. Mr. DeGraffenreid, 116 Foursome Lane, stated that the dogs are well behaved but the P&Z Committee voted to deny the request. The city ordinance says 3 dogs and it should be enforced. It is a residential area not a place for a kennel. The public hearing closed at 7:25 PM. It was asked if the code
enforcement officer had any additional information. David reported that if you have 3 females you need a state license as a breeder. There was some discussion about this application. Wayne Smith asked if he had it listed with a realtor. He stated no, he thinks once the P&Z sign is down he will get more traffic. Mark Powers motioned to approve the recommendation of the P&Z to deny the application. Richard Zaccardelli seconded. All in favor. No opposed.

P&Z has recommended approval. There was no one else to speak during the public hearing. Mayor Moss closed the public hearing at 7:35 PM. Mark Powers motioned to put “AN ORDINANCE APPROVING A CONTRACT BETWEEN THE CITY OF CARL JUNCTION, MISSOURI AND SPROULS CONSTRUCTION, INC., TO CONSTRUCT THOM’S STATION TRAIL PHASE III, JASPER COUNTY, MISSOURI, FOR THE CITY OF CARL JUNCTION, MISSOURI, IN ACCORDANCE WITH THE CONTRACT DOCUMENTS, FOR THE SUM OF $ 128959.53 OR AS OTHERWISE PROVIDED IN THE CONTRACT; PROVIDING THE TERMS AND CONDITIONS THEREOF; AND AUTHORIZING THE MAYOR TO EXECUTE SAID CONTRACT FOR AND ON BEHALF OF THE CITY OF CARL JUNCTION, MISSOURI” on first reading by title only. UNFINISHED BUSINESS
Don Marshall asked putting the trash cans back by the houses after trash day. In his neighborhood they are leaving them out by the road side all the time. It was stated that they are supposed to put them in their garages or by the house and not leave them out. The council stated that they have heard positive things about the new trash cans and going automated. Don then asked about the American Legion and it was stated that they are commercial and they would have to talk to Jennifer.

Richard Zaccardelli asked about the hazardous waste collection agency. Steve reported that he went to Arkansas for a meeting regarding a company that had done hazardous waste pick up in this area a few years ago. He said that ADOT still has not issued them a number but they are still operating. They do not know who had what waste and who to hold responsible. Some of the waste was not required to have documentation for EPA and it is all a mess right now.

NEW BUSINESS
Chief Haase reported he will be out of town Thursday and Friday for meetings.
Steve reported that the building inspector has been busy locating structures that need repair. He had laid out a list of houses for the council that he has identified and we are working on.
Steve then reported that he had sent out an RFP for a conceptual plan for 5 round-a-bouts. It is part of the Long Range Planning for traffic control. He received 3 proposals back: Anderson’s Engineering - $7000, Tri-State Engineering - $3000, Allgeier-Martin - $8500. Steve recommended that we go with Tri-Sate Engineering since they have experience with them. That price is for all 5 intersections. The 5 intersections are Fir & Lone Elm, Fir & Briarbrook, Fir & Joplin, Hwy ZZ & Hwy JJ, Roney & Pennell. Don Marshall brought up that all of these are partially outside the city limits. Steve explained that this is the conceptual design only. If we decide to go ahead with the projects he will bring in the other entities for engineering. We first need to find out if it is feasible or not. There was discussion about round-a-bouts in general. It was stated that all of those intersections have problems and that one of them would be close to the West By-Pass. Steve said that the round-a-bout would not be an issue with the by-pass when the time comes. It will not be a 4 lane by-pass. Dee Lynn Davey motioned to accept the proposal from Tri-State Engineering for $3000. Don Marshall seconded. All in favor. No opposed.

Steve then reminded the council that Richard Zaccardelli and he will be attending the MML Legislative Conference Wednesday and Thursday.
