PUBLIC FORUM
Mark Tatum 603 Valley view Drive addressed the council. He had a leak and his water usage went from 4000/month to 28000 gallons. As soon as he got his water bill he shut his water off. His next bill will be for about 170,000 gallons. That is a lot of money and nobody called him to tell him that he had a leak. He feels that when the city did the readings they should have let him know he had a leak. The City had 2 weeks to get a hold of him about it and now he is going to have a $600 water bill to pay. Mark Powers stated that the report the City gets does not show the normal amount. Tim Smith asked about adjusting the bill. The City Clerk explained that we do adjust the sewer charges but not the water charges. Steve also stated that it takes just as much money to treat the water whether it goes into the house or it is a leak. It has always been our policy to adjust sewer but not water. We are willing to work on payments with them. There was a lot of discussion about this policy and whether we should change it.

Sharon Clark, USPO postmaster, addressed the council about getting a sign to show all of Carl Junction's accomplishments, not just sports. There have been a lot of positive things happen in the last few years and she feels we should let people and visitors know. Mark Powers suggested that the Public Facilities look at this and see what they can come up with for a recommendation. There was talk about the entrance to Carl Junction. Steve said that the land and sign are owned by Bill and Vera Russell.

Gary Shublefield reported that they had 75 people at the ribbon cutting ceremony at the Freeman Clinic on Main Street. He also reported that the Carl Junction Expo has sold out. He then went over the upcoming events for the Chamber.
