**UNFINISHED BUSINESS**

Tim Smith asked if we had the basketball problems straightened out. Steve stated that since basketball season is over we have had no problems.

Bob Cook then brought up the proposed baseball complex. He said that if this is going to happen we are going to need help. Steve has contacted Allgeier Martin & Associates to draw up some preliminary plans. He would like to see us pursue this project with the help of a lot of people. He thinks we should set up some meetings with different organizations. He has been receiving phone calls about it already. He stated that we need to try to get grants that are available and donations from some of the larger corporations in the area. Steve reported that AMA did 3 difference concepts and they are doing cost estimates now. He also contacted Jack Dillingham at Piper Jaffrey to find out how much money the retiring bond would generate. We have to have this passed by April of next year in order not to let the bond lapse. There was a lot of discussion about this project and Bob said that we have a great quality of life and we need to keep it. Tim Smith agreed that he thought some of the larger corporations would be willing to donate some of the work for this project. He said we need to make sure that they are quality fields if we plan on holding tournaments. Steve has been looking into what grants might be available for this project. What he has found so far are very competitive and some by invitation only. Tim suggested we do this in stages such as putting off paving the parking lots until a later date. Get the fields and what is needed up and running first. It was asked what would happen to the old fields. Steve stated that they had talked about pulling out the lights, poles and fencing and putting in soccer fields. They do not require as much maintenance as baseball fields.

Mike Talley stated that he didn’t get direction from the council during the last closed session and now asked the council for consensus to discuss with an outside party what was discussed during the last closed session. The council agreed that he could discuss it with the outside party.

Steve Daniels asked when the next bid cycle was for the Missouri Housing Development Corporation would be. He had a party interested in submitting an application. He thought it might be in April. Steve will check into it.

Steve gave the council a complete report of the fiber optic survey to the council. He has sent it to a party in St. Louis that was interested in it. They will try to analyze it and get back with us. Mark Powers stated from the comments it appeared that people didn’t understand what we were asking.
