REPORTS
The council reviewed the Administration report. Steve Lawver reported that he will be attending a fiber optic conference next week and will be out of the office. He also has contacted Senator Claire McCaskill and Rep Billie Long to try to assist us on our FCC application we sent in. We sent the survey back out this week and have started getting some back already. There was some minor discussion about the survey. Bob Cook asked if he had heard anything about the baseball complex. Steve said that he has not heard anything negative so far.

Public Works report - had nothing new to report. Mark said he appreciated the PW guys notifying him he had a leak.

Police Department report - had nothing new to report. Bob Cook asked if we had sold our PD cars yet. Chief Haase reported that he has one spoken for and maybe the other one also. The new cars will be delivered the 2nd or 3rd week of April.

UNFINISHED BUSINESS
Bob Cook asked about the trailer on Joplin Street. Steve said that they were going to remove the trailer but is not sure if there is a deadline. He will check on it.

Tim Smith asked about the tennis court repairs. He asked about the resurfacing and the crack sealing. He also asked if we take down the fences if it would be temporary and they would be put back. Steve said that we were not going to take out the posts just take the nets off. He was going to take down the fence on the East and West sides. This would be for vendors during the Bluegrass festival. He was going to put parking blocks up so that people would not park on it. We need better access to it. He had not planned on putting the fences back up. We could put gates in but he was trying to keep the costs down. Tim said that if we don't do something there will be a lot of wild balls. Steve said that the bid from Blevins was $26,000 for a 4 inch overlay. There was some discussion about whether 2" would be enough and not 4", about the flexible joint sealer and that the bid did not include paint. It was also asked if the bond passes if some of that money could be used to resurface it. The ballot language was read and there was some discussion of it. Mike Talley said the closer you keep to new construction the better it would be. There was some discussion about repairing it and Steve commented that we could do a bare bones repair on it just not the $26,000. The base is in good shape which is different than he previously thought. It was also stated that people do use it and probably would use it more if we repaired it. We might need to look at the lights around it also when we do our repairs.

NEW BUSINESS
Mark Powers asked about the MO DOT meeting on the round-about. Steve Lawver reported that he and Roger Spencer went and it was a good meeting. They answered a lot of questions. They do not need to get additional right of way, it will be a 2 lane round-a-bout with 4 lanes to Harps. The other side will stay the same. This will be the highest traffic count round-a-bout in the State of Missouri with 40,000 cars a day. The north side the of the intersection will be 4 lane up to the Mercy entrance. All right corners will not need to stop you will just go around the corner. They stated that the round-about should be finished in September. They plan on doing most of the work at night. The transportation list was for information only. There is no time line set on those projects. Steve is guessing a 5-10 year time line.

Steve then referred the council to the water rate analysis for our new fiscal year. It will be a big change for our water rates. Steve explained how the rates were calculated and that DNR stated we could not charge a different rate between residential and commercial. We can only have in town and out of town rates. The average water bill will go up about $5.00/month. The sewer rates will see a small rate change of about 3%. We will be passing the ordinance at the next meeting and they go into effect 5/15/14.

ADJOURNMENT
Mark Powers motioned to adjourn the meeting. Don Marshall seconded. All in favor. No opposed. Meeting adjourned at 7:47 PM.
