**NEW BUSINESS**

Mayor Moss then informed the council that Zimmerman Properties was here to talk about their proposed subdivision and the Resolution needed for their financing for this project. Jamie McDonald addressed the council. He explained that they had done Prairie Hills Estates Subdivision west of the CJHS in 2006. They are proposing to buy vacant property from Stutesman Construction and put in 42 single family homes and 7 duplexes. They have been in business since 1986. They have allowed room for Community space that will be 2000 square feet with a kitchenette and laundry room. The homes will be 1350 square feet with a 2 car garage.
They will be finished nicer than the ones in Prairie Hills and each home will have a safe room for severe weather built in them. They will be different styles and they will have hardi-board as siding and 30 year shingles. They will be bronze rated for energy efficiency. They will rent anywhere from $540 - $620/month. It is work force housing. They do credit and securities checks and have strict guidelines. Some of their occupants are computer techs, teachers, and nurse technicians. They have done 77 of these communities in 8 states. There was some discussion about this project in this particular Ward. Jamie McDonald said that there are no abatements and they will pay their taxes. These homes are income based for example young couples where one is still in college or single parents with one income. This program is designed to provide nice housing to improve their situation. Richard asked about traffic. Mr. McDonald said that they plan on extending Anita Drive to Fir Road and will work with the City on traffic issues. They are asking for rezoning from C-1 to R-2 which is down zoning. It was stated that they will be part of the CID. Mr. McDonald was aware of that. Chief Haase asked what they do after someone is approve and then they let someone move in with them. How do they track that? Mr. McDonald said that is not allowed and needs to be reported so they can do back ground checks on them also. They have to go through the application process. They look for red flags. Jamie McDonald said that they were going to have a property manager on site also. Bob Cook asked about their contractor’s. Mr. McDonald stated that they act as the General Contractor and sub-contract out. The subcontractors will have to be licensed. They also try to use local subcontractors. They participate in e-verify to make sure that all subcontractors are legal citizens. After some more discussion, Bob Cook motioned to approve the Resolution. Don Marshall seconded. All in favor.
