

API Success

The Journey to Digital Transformation

Authoritative advice on creating and running a successful API program.

The number of articles, books, and documents available on the topic of Application Programming Interfaces (APIs) might lead you to believe the topic has been well researched and well documented. But in fact, confusion abounds, especially about the best ways to create and maintain a successful API program. This book addresses that confusion. It encapsulates years of practical experience on how to make the right decisions at the right times when planning, designing, developing, and marketing APIs.

About the Author

Author, Frequent Speaker, and Chief Technology Officer Nelson Petracek helps shape the development of TIBCO technology platforms and products. With over 20 years' experience, he draws upon his deep knowledge of APIs, cloud, event-driven architectures, analytical applications, and other innovation areas to advise on information creation and delivery patterns.
