

Fun and Easy Tips for Enhancing Detoxification

1. Drink 1 cup of hot water with ¼ lemon and 2 pinches of cayenne pepper first thing upon waking (on an empty stomach). This is very simple but you would be amazed how many people say they can't live without it once they start!

2. Take a warm bath with Epsom salt added to soothe, relax and detox. Additionally you may rub on the salt with a warm, wet washcloth in bath or shower-very invigorating.

3. Try your own 'hydrotherapy' in the shower by alternating hot/cold. This stimulates circulation and your immune system. You can also do a sauna/cold shower/sauna etc., if you belong to a gym. This is not for the squeamish, but it is very invigorating! You'll feel like a million bucks when you're done. Of course, just a sauna and a shower are beneficial as well.

EcoCleanse

14 Day Detoxification Program

Dietary Supplement
28 Drink Mix Packets • 28 Capsule Packets

The Importance of Detoxification

The goal of this program is to gently and slowly support the process of metabolic detoxification. We live in an ever-increasingly toxic environment. Many of the toxins, also known as Persistent Organic Pollutants (POPs), are abundant in the environment today and did not exist 30 years ago. These new toxins include certain pesticides, herbicides, and industrial chemicals that can enter the body through food, water, and air supplies. These toxins can and often do become trapped in the body's organs and tissues, which over time can negatively impact health, vitality, overall wellness, and may contribute to the development of chronic illness. A detoxification program should be simple to complete, effective in outcome, and without concern for safety. By supporting the body's natural two-phase process of detoxification, toxins can safely and effectively be cleansed from the body.

“ Doing the EcoCleanse was a great experience. I was amazed how easy it was. The cleanse was actually fun to follow and the shakes taste great! I felt great both physically and mentally and had a lot of energy throughout the cleanse. An added benefit was that I lost some weight and I lowered my body fat percentage. ”

-Terri (Novato, CA)

Living a Detox Lifestyle

Detoxification is a continuous physiologic process that your body depends on for survival. There are complex cellular detoxification mechanisms that are constantly at work for you all day, every day. Natural and synthetic chemicals are processed by this complex system of cells, organs, and organ systems to keep you healthy in the face of a virtually constant barrage of toxic material. This program is an excellent tool to improve your detoxification in the short term. The following suggestions will help you keep your body's toxic burden low and your detox mechanisms working for the long haul.

Notes on Plastic

Never heat food in plastic, as this process releases harmful chemicals that can seep into your food. Use glass or ceramic instead.

Skin Brushing

To aid in lymphatic drainage, use a dry, natural fiber shower brush or loofah to massage your entire body before you shower or bathe. Start at the toes, and gently scrub, using circular motions toward your heart.

Clean Water

Public tap water is often contaminated. Drink and cook with only pure, filtered water and consider adding a filter to your shower. At EcoHealth Wellness Center & Detox Spa, we recommend drinking Kangen water. To learn more visit www.ecohealthwater.com

Microwave Ovens

Although the convenience of microwaves is indisputable, this method of heating can disrupt chemical linkages in otherwise healthy foods and can decrease their nutritional value. Heat on a stovetop or in an oven whenever possible and use a cast iron pan. Avoid Teflon and synthetic non-stick coatings.

Exercise

One of the best ways to increase your metabolic activity is to simply use your body. Daily exercise has innumerable benefits including building lean muscle mass, which helps you burn more calories at rest. Consider jumping on a mini trampoline for 3-5 minutes a day to boost your health and vitality. Sweating also releases toxins.

Option twelve

3 to 4 oz chicken salad (made with avocado oil instead of mayonnaise) wrapped in a large lettuce leaf. Feel free to add grated carrots, or other veggie of your choice.

Option thirteen

Large mixed green salad with veggies of your choice, 3 to 4 oz grilled chicken or fish, topped with extra virgin olive oil, lemon, and herbs of choice.

KID-FRIENDLY MENU IDEAS

Brown ground turkey, sauté veggies, add tomato sauce and heat through, serve with spaghetti squash or quinoa spaghetti noodles

Mashed sweet potato or parsnips with or without olive oil and cut up chicken

Grilled chicken or fish and cut up mango in small corn tortillas. (May add chopped onion, tomato, and cilantro if tolerated)

HEALTHY SNACK OPTIONS

1 piece of fruit and 10 to 12 almonds, walnuts or pecans

Cut up carrots or bell pepper with 1 to 2 Tbs hummus

Apple slices or celery sticks with 1 Tbs almond butter

Turkey Roll Up: Chop up tomato, cucumber, and 1/4 avocado, grate a carrot, and add to the middle of a slice of nitrate free turkey. Roll the turkey around the ingredients and you have a turkey roll up. Variation: add salsa or hummus

FREQUENTLY ASKED QUESTIONS (FAQs)

Will it be uncomfortable?

There are bound to be differing opinions about the change in diet, but this detox is designed to be gentle and easy to follow. Remember, it is not a fast, nor is it a colon cleanse, both of which can be very harsh on your system. You will be eating plenty of food and the shakes are pleasant-tasting. You may feel slight withdrawal symptoms such as fatigue and a mild headache if you are giving up a lot of caffeine or sugar. The EcoCleanse Program is a comprehensive formula which is meant to assist you through the challenging days. Be patient, the symptoms will pass, and it will all be worth it!

Will I be in the bathroom all day?

This cleanse is not designed for you to be in the bathroom all day. If you have more than three bowel movements or diarrhea, then decrease to one EcoCleanse powder and capsule packet a day. It is very important to consume extra water while on this program to help flush out toxins. Therefore, most people urinate more often than usual on this program.

Will I lose weight?

The EcoCleanse Program is not designed to be a weight loss program. However, many people do lose weight during the course of this detox program. Some reasons for weight loss include: lower than usual caloric intake due to replacing meals with shakes, removing sugar from the diet, releasing toxins from fat stores, and decreasing consumption of allergenic foods such as wheat and dairy.

Will I get headaches?

Some people experience headaches during the first few days of their detox due to sugar and caffeine withdrawal. You may want to gradually decrease the intake of these substances one week prior to detoxification to minimize discomfort. The EcoCleanse Program powder is designed to assist your body in this process as quickly and efficiently as possible.

Can I exercise?

You may exercise normally (monitor yourself, of course). Some days you may feel fatigued. On these days, you may want to limit yourself to gentle movement such as walking, stretching, yoga, etc.

Should I continue with my regular vitamins?

The 14 Day EcoCleanse Program contains a variety of vitamins and other nutrients to help meet your daily requirements. You may suspend other natural supplements during the detox under the guidance of your health care practitioner, but continue to take any medically prescribed pharmaceuticals. Ask your health care practitioner if you have any specific questions.

Should I choose organic produce?

Organic is preferred, but not mandatory, to obtain the benefits of this program. When possible, choose the organic variety of the following fruits and vegetables:

Celery	Strawberries	Cherries
Apples	Nectarines	Kale/Collard Greens
Peaches	Bell Peppers	Potatoes
Blueberries	Spinach	Grapes (Imported)

If organic varieties are not available, the following fresh fruits and vegetables consistently have the lowest levels of pesticides and are the safest choices for conventionally grown produce:

Onions	Sweet Peas	Watermelon
Avocado	Asparagus	Grapefruit
Sweet Corn	Kiwi	Sweet Potato
Pineapple	Cabbage	Honeydew Melon
Mangos	Eggplant	

The EcoCleanse Program Difference

EcoCleanse Plus Powder

This proprietary detoxification powder is a unique and advanced combination of nutrients, antioxidants, fiber, fruit and vegetable extracts, and pure herbs that support the overall metabolic detoxification process while balancing Phase I and Phase II detoxification pathways.

Dose: Take 1 single serving drink mix packet twice daily

EcoD-Tox Capsules

The EcoD-Tox capsules effectively supports the detoxification process by supporting Phase II activity, while helping to protect the liver as chemicals and other toxins are mobilized for excretion. The packets are designed with specific nutrients that assist in the avoidance of toxic overload and the reabsorption of harmful toxins back into the blood stream.

Additionally, the EcoEnzymes contain a digestive formula that helps eliminate the gastrointestinal discomfort that may be associated with other detoxification programs.

Dose: Take 1 capsule packet twice daily. This may be taken along with the shake.

Option three

Organic vegetable broth

Shrimp and vegetables: Sauté fresh tail-on shrimp and chopped garlic in a pan with coconut oil, over moderate heat. Roughly chop 5-10 different vegetables and lightly stir-fry with freshly grated ginger and ½ cup cooked buckwheat noodles, lightly drizzle sesame oil

Option four

Baby greens salad with extra virgin olive oil & squeezed lemon or lime

Grilled buffalo burger on a baked or grilled portabella mushroom

Mixed roasted vegetables: Roast combination of cauliflower, broccoli, Brussels sprouts

Option five

Beet greens with extra virgin olive oil & squeezed lemon or lime

Wild salmon, steamed or grilled

Steamed beets (steam 20-30 minutes or until soft, then peel off skin)

Option six

Mixed greens salad with extra virgin olive oil or lemon flavored flax seed oil

Broiled chicken with peppers: Roughly chop: green, yellow & red peppers, onion and mushrooms; toss lightly with extra virgin olive oil & chopped garlic ½ cup wild brown rice.

Option seven

Steamed veggies (cauliflower, broccoli, carrots). Drizzle with olive oil and lemon after steamed.

Baked cod topped with tomato pesto

Option eight

Roasted green beans

Grilled turkey breast with sage

½ baked sweet potato

Option nine

Baked sole with lemon

½ cup baked acorn or butternut squash

Steamed green & yellow beans, topped with flax oil

Option ten

Steamed kale or cauliflower rice

Grilled chicken with garlic pesto: Mince 2 cloves of garlic and add to ½ cup extra virgin olive oil with some finely chopped fresh basil or ½ tsp of dried basil. Spread garlic-basil mixture on chicken breasts and allow to marinate while preparing the rest of dinner. Grill.

Option eleven

1 cup hearty vegetable soup

Grilled salmon

Steamed artichoke with lemon

ALKALINE BROTH – A GREAT WAY TO ADD VEGETABLES TO YOUR PROGRAM

Choose a combination of the following vegetables equaling approximately 1 ½ - 2 cups: celery, green beans, zucchini, spinach, parsley, kale, chard, carrots, onion, garlic, and favorite spices. Place vegetables in a soup pot with a significant amount of filtered water (more than enough to cover). Bring to boil and then let simmer for 45 minutes. Strain and keep the broth. You may drink as much of this broth as you want during the EcoCleanse Program with a minimum of 1 cup per day. This recipe will keep in the refrigerator for 3 days. Please do not freeze and defrost. Make fresh as needed. If you do not have a sensitive GI system you may purée the vegetables and broth together in a blender and consume as a heartier soup.

Sample Detox Menus

SAMPLE BREAKFAST MENUS

2-3 hard boiled eggs with ½ grapefruit

¾ cup hot quinoa cereal or gluten free steel cut oats, 1 scoop protein powder (about 8 to 10 grams), ½ cup berries, and a small handful of walnuts or pecans

Sulfur Detox Scramble: 2-3 eggs scrambled with onion and/or garlic and/or broccoli

Add leftover salmon from night before to sautéed veggies, stir to heat up, add condiments/spices

2 to 3 poached eggs over a bed of fresh spinach and sliced tomato

2 to 3 slices turkey bacon with leftover veggies from night before or sliced tomato and avocado

SAMPLE LUNCH AND DINNER MENUS

Option one

Green salad with sprouts, extra virgin olive oil, basil, & squeezed lemon or lime
Baked cod topped with avocado salsa: Chop: 1 avocado, 1 tomato, ½ cup red onion, add ½ cup capers (drained), ¼ cup fresh cilantro, ½ tsp. cumin, ⅓ tsp. cayenne and 2 tablespoons lime juice.

Option two

1 cup vegetable soup
Chopped cabbage with chicken and apple cider vinegar (can use leftover grilled chicken)

EcoCleanse Program Guidelines

Follow these guidelines throughout the EcoCleanse Program

Focus on whole and seasonal foods. This usually means shopping the outer aisles of your grocery store or visiting your local farmers' market. Avoid processed and packaged foods whenever possible.

Eliminate

For best results, avoid wheat, dairy, potatoes and corn.

Sugar in all forms, including sucrose, fructose, high fructose corn syrup. Natural low-impact sweeteners such as stevia & polyols (e.g., xylitol & erythritol) are allowed.

Artificial sweeteners (sucralose, maltodextrin, saccharin, aspartame, Sweet 'n' Low, Splenda, Equal)

Gluten-containing grains: avoid foods which contain wheat, oats, rye, spelt, kamut, bulgur, couscous, and barley. This includes pastas, bread, crackers, cereals, and other products made from these grains. Gluten-free whole grains such as brown rice, wild rice, millet, quinoa, amaranth, and buckwheat are allowable during the detox program.

Dairy products including milk, cheese, yogurt, and ice cream

All alcohol and caffeine-containing beverages including coffee, tea and soda

Soy protein, including tofu and tempeh

Desserts (chocolate, candy, cakes, cookies)

Fried foods, hydrogenated oils, margarine

Peanuts/peanut butter (high allergen legumes)

IMPORTANT:

Drink half of your body weight in ounces of water every day for the entire EcoCleanse Program.

*If you weigh 200lbs, then you should drink 100oz. of water per day.

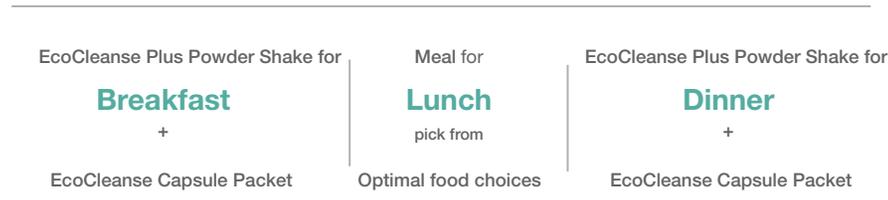

EcoCleanse Program Guidelines

14 DAY SIMPLE SCHEDULE

DIRECTIONS:

Each day, consume two EcoCleanse Plus Powder Shakes, two EcoCleanse Capsule Packets, and one healthy meal that is most convenient to your daily schedule along with healthy snacks.

An example if you choose lunch as your meal:

Breakfast:

EcoCleanse Plus Powder Shake

Mix one single-serving drink mix packet in water or your choice of unsweetened almond milk, coconut milk, or other milk alternative.

Take one EcoCleanse Capsule Packet

Lunch:

Regular Meal: Choose healthy items suggested from the optimal food choices on page 6

Dinner:

EcoCleanse Plus Powder Shake

Mix one single-serving drink mix packet in water or your choice of unsweetened almond milk, coconut milk, or other milk alternative.

Take one EcoCleanse Capsule Packet

Snacks:

This is not a calorie restrictive program. If you feel hungry between meals, you can snack on healthy whole foods in moderation. However, tune in to your body and make sure that you are truly hungry and not just bored, tired, or stressed!

HEALTHY FOOD AND SNACK OPTIONS

Follow for the entire EcoCleanse Program

OPTIMAL PROTEIN CHOICES:

Organic/hormone-free chicken
Turkey
Lamb
Grass-fed beef
Cold water fish (salmon, cod, sardines, pacific flounder/sole, butterfish, and trout- choose wild ocean fish over farm raised fish)
Organic eggs
Organic legumes (acceptable as a vegetarian protein)

OPTIMAL FAT CHOICES:

Flaxseed
Walnut oils
Extra virgin olive oil
Hempseed oil
Avocado
Raw, sprouted, or dry roasted nuts and seeds
Organic cultured butter
Ghee
Coconut oil for higher heat cooking

LOW GLYCEMIC INDEX FRUIT CHOICES:

Berries (blueberries/raspberries/strawberries)

MODERATE GLYCEMIC INDEX FRUIT CHOICES (FRESH OR FROZEN):

Cherries	Melons	Peaches	Prunes	Tangerine
Pears	Plums	Grapefruit	Kiwi	
Apricots	Oranges	Apples	Nectarines	

BEVERAGES:

Herbal teas	Vegetable juices
Naturally decaffeinated green tea	Coconut water
Spring water	Kangen water

VEGETABLE CHOICES:

You can eat an unlimited amount of vegetables from the list below.

Salad greens	Carrots	Sweet peppers
Cruciferous veggies	Cucumbers	Raw sauerkraut

Avoid starchy veggies such as potatoes and corn.

CONDIMENTS:

Lemon	Garlic
Lime	Fresh herbs and spices
Cayenne pepper	Flax/olive oil & raw apple cider vinegar for dressings
Sea salt	

MISC. SNACK CHOICES:

Nuts (raw are best)	Low glycemic fruit
Hummus	Almond butter with apple slices
Raw or steamed vegetables
