ABOUT OUR COMPANY

Located in South Dakota, Walkabout Mother Bins focuses on quality constructed Mother Bins, providing an efficient, easy, affordable harvest system that limits overhead and downtime for US farmers.

The **Walkabout Mother Bin** is essential harvest equipment offering a large, portable grain storage solution (4,000-bu capacity) and a 22" Elmer's unload auger. When in operation, the Walkabout Mother Bin allows the combine to run continuously, eliminating the need to stop and unload. A Mother Bin can load a semi in about two minutes and has an unload rate of 900-BU min.
