Hi, my name is \_\_\_\_\_. I am calling from **STATE** \_\_\_\_\_ near **REFINERY NAME**.

I would like to leave this message for President Trump:

- Stay strong on the small refinery relief program. Don't let one group of judges take control of the RFS.
  - o As someone who lives near a refinery, I know firsthand that the RFS threatens manufacturing jobs and the communities where these refineries operate.
  - o Providing relief to small refineries helps ease RFS burdens for those facilities and for the entire refining industry.
- I know President Trump is being pressured to give up the fight and end the small refinery relief program. Please don't.
- Don't abandon refiners and their communities. We need President Trump to help keep RFS costs low and protect our communities.

Thank you for delivering my message.

Hi, my name is \_\_\_\_\_. I am calling from **STATE** \_\_\_\_\_ near **REFINERY NAME**.

I would like to leave this message for Administrator Wheeler:

- Please don't back down on the small refinery relief program. One court ruling shouldn't have the power to eliminate this critical lifeline.
  - o As someone who lives near a refinery, I know firsthand that the RFS threatens manufacturing jobs and the communities where these refineries operate.
  - o Providing relief to small refineries helps control RFS compliance costs for those facilities and the entire refining industry.
- I know the EPA is considering ending the small refinery relief program. Please don't.
- Problems with the RFS will only get worse if the mandate gets more expensive.
