**Facebook** (copy and paste the following text as an update): I work at/for/with a small refinery. We need President Trump to protect our jobs from a court ruling that's going to make the ethanol mandate bigger and more expensive. As one of my friends, would you consider calling the White House — (202) 456-1414) — to relay this message? Every voice helps!

*President Trump, please stand up for small refineries and the jobs they support around the country. The ethanol mandate is too big and refineries need relief to keep costs fair. Thank you.*

**LinkedIn** (copy and paste the following text as a post): Will you take 3 minutes to email President Trump? America's small refineries need the President to protect our jobs from a court ruling that's going to make the federal ethanol mandate bigger and more expensive. I'm asking all my contacts and colleagues to take a few minutes to write the White House and tell them this:

*We need President Trump to stand up for small refineries and the thousands of jobs they support around the country. The ethanol mandate is too big and refineries need relief to keep costs fair. President Trump and the EPA need to challenge the court ruling that's seeking to strip refineries of any relief from regulatory costs.*

*Thank you for considering. The President's intervention is very important for refinery jobs. This is where you can send a message: <https://www.whitehouse.gov/contact/>*
