Ellington (2625 ft²)

The family room will welcome every day casual living in the spacious Ellington. More formal occasions are also catered to with a separate dining room and formal room. Your Ellington begins with a dramatic two story entry foyer which offers convenient access to the living room, dining room or den. Towards the rear of the house, the family room with fireplace will be center of year round activity. The large country kitchen invites puttering around the island cook top or spending a few extra moments in the breakfast room.

Quiet time can be spent in the den which can be located either off of the entry foyer or adjacent to the family room. Upstairs reveals a master bedroom/bath suite where a luxurious design beckons you to enjoy quiet relaxing moments. Three additional upstairs bedrooms and a second full bath provide plenty of room for a growing family. A main floor laundry room with its own access off of the two-car garage, a main floor powder room and a large basement complete the design of this very livable home.
