AmbSmart EMS Case Study

An ApexonHealth EMS company client was facing margin pressures with rising operational costs, and were looking for a solution that could provide cost savings, as well as develop operational efficiencies and increase collections. The client was experiencing increasing accounts receivable days, 5% denials, and 3 day turnaround times. The client required:

- Improved cash flow
- Ability to address and resolve compliance issues effectively and quickly
- Secondary claim visibility and follow up
- Secure client access to the claim system
- Data analytics and dashboards
- Improved follow up on denials, rejections and errors

ApexonHealth implemented the AmbSmart EMS solution within 30 days. Within 90 days of implementation, the following benefits were achieved:

- Accounts receivable days were reduced to 40 days
- 30% decrease in denial rate
- 24 hour turnaround time (from 85 hours)

\$1 Million
