

Where Are You Heading?

Your Future is ~~Now~~ WOW!

Some people believe if they don't take a traditional path to a career they will never succeed financially. In reality, there are many paths that will take you to a high paying career, beyond pursuing a four year degree.

There are multiple options that can provide you with a specialized skill set. They start as early as high school. For example, our area high schools offer programs in automotive, pharmacy, veterinary medicine, engineering, computer science, family & consumer science, first responder, health professions, graphic communications, journalism, and more.

8,000 jobs are headed to the Southeast Idaho region in a variety of fields. All you need is the right set of skills to land the job.

What Are Postsecondary Skills?

- Postsecondary skills are any education beyond high school
- Trade schools, technical programs, college programs, vocational programs, apprenticeships, and community service programs all fall in the postsecondary category
- Southeast Idaho has a wide variety of options: College of Eastern Idaho, Idaho State University, Idaho State University College of Technology, Elevate Salon Institute, and Sage Tech Truck Driving are just a few of the available options. Visit www.impacteastidaho.com to learn more

Your Future Career

- Expanding your career options creates a more stable financial future
- The better your skills and education, the more options you can choose from
- Better education and skills can mean a higher paying job
- You will make social and professional connections
- When a community's workforce is fully engaged, the entire community is stronger
- Our region has a wide variety of employers actively seeking employees such as ON SemiConductor, Idaho Central Credit Union, Portneuf Medical Center, Bannock County, Convergys Business Services, Union Pacific Railroad, J.R. Simplot Company, Health West, and more
